

HANDBOOK

DigiPack of Tools

for Youth Workers

Exploring digital tools, AI and cybersecurity — while staying connected to people, place and nature.

15–23 July 2026, Stara Zagora, BULGARIA

Co-funded by
the European Union

About Erasmus+ & the Project

ERASMUS+

Erasmus+ is the EU's programme to support education, training, youth and sport in Europe. It supports priorities set out in the European Education Area, the Digital Education Action Plan and the European Skills Agenda, and it implements the EU Youth Strategy 2019–2027.

THE PROJECT

DigiPack of Tools for Youth Workers (2025-3-BG01-KA153-YOU-000368386) brought together 31 youth workers from 8 countries to explore how technology can support safer, more creative and more meaningful youth work — through non-formal learning, practical workshops and shared experience.

Digital Tools

Creative platforms and practical methods that make youth work more engaging, collaborative and accessible.

CREATE · COLLABORATE · ENGAGE

AI & Ethics

Exploring artificial intelligence with curiosity, critical thinking and care for the people it affects.

QUESTION · REFLECT · USE RESPONSIBLY

Cybersecurity

Recognising online risks, protecting personal information and creating safer digital spaces for young people.

RECOGNISE · PROTECT · PREVENT

Partners & Countries

Different backgrounds. Shared knowledge. Stronger youth work. — 8 countries, 1 flowing story.

Welcome to This Handbook

This handbook is your companion for the days ahead — a shared toolbox of workshops, energizers, and reflections, built by youth workers, for youth workers.

Each activity includes its objectives, timing, materials, and flow, so you always know not just what we are doing, but why.

WORKSHOPS

ENERGIZERS

REFLECTIONS

OBJECTIVES

- Get to know each other and feel comfortable within the group.
- Build trust and create an inclusive, respectful learning environment.
- Learn names and reduce initial tension through movement and play.
- Discover shared interests, backgrounds and expectations for the week.

Group size: Whole group

Materials: Flipchart; A3 paper; markers; coloured pencils; stickers; printed bingo sheets

ACTIVITY FLOW

- 1 **Welcome & Opening** (15 min) Introduce trainers/organisers, share practical info and the purpose of the training.
- 2 **Name & Motion** (15 min) Circle icebreaker — each participant adds a name + gesture for the group to repeat.
- 3 **Speed Dating** (20 min) Two rotating circles; participants exchange quick answers to guiding questions.
- 4 **Identity Map** (40 min) Visual self-presentation on A3 paper using symbols; shared in small groups.
- 5 **Find Someone Who...** (20 min) Bingo-style mingling activity to discover common experiences.
- 6 **Coffee Break** (15 min)

OBJECTIVES

- Agree on common rules, expectations and ways to solve conflict.
- Understand the training's aims, programme and non-formal methodology.
- Become familiar with Youthpass and the learning-recognition process.
- Set 2–3 personal learning goals for the week.

Group size: Small groups → whole group

Materials: Flipcharts; markers; sticky notes

ACTIVITY FLOW

- 1 Creating Group Agreement (35 min)** Small international groups propose rules; facilitator combines them into one shared agreement.
- 2 Presentation of the Training (25 min)** Project objectives, daily programme, expected outputs, Erasmus+ priorities and housekeeping.
- 3 Youthpass Introduction (20 min)** What Youthpass is, why it matters, and how learning outcomes will be tracked.
- 4 Reflection & Closing — One Word Check-Out (15 min)** Each participant completes: "Today I feel..." or "One thing I am taking with me is..."

Topic one

Participants explore what digital youth work really means, map the platforms and tools they already use, then turn to the ethical dilemmas of working with young people online — closing with a shared Code of Ethics.

DIGITAL TOOLS

ETHICS

CODE OF CONDUCT

OBJECTIVES

- Understand the concept and importance of digital youth work.
- Explore the opportunities and challenges of digital tools in youth work.
- Reflect on personal digital practices and exchange approaches.
- Identify commonly used digital platforms and tools for youth engagement.

Group size: Whole group + international sub-groups

Materials: Laptop & projector; flipchart paper; markers; sticky notes; Mentimeter/Slido

ACTIVITY FLOW

- 1 **Emoji Check-In** (10 min) Participants choose an emoji for how they feel about digital tech in their work.
- 2 **Brainstorming — "Digital is..."** (20 min) Sticky-note brainstorm around a central flipchart title; ideas grouped by theme.
- 3 **Interactive Presentation** (35 min) Definitions, benefits (outreach, inclusion, creativity) and challenges (divide, privacy, safety).
- 4 **Mentimeter / Slido Poll** (15 min) Live poll on tools used, confidence levels and biggest challenges.
- 5 **Coffee Break** (15 min)
- 6 **"My Digital World" + Gallery Walk + Reflection** (95 min) International groups map platforms/tools/uses on flipcharts, then tour and reflect together.

OBJECTIVES

- Understand the ethical responsibilities of digital youth workers.
- Identify common ethical dilemmas in online youth work.
- Develop critical thinking and decision-making for digital challenges.
- Co-create a shared Code of Ethics for Digital Youth Workers.

Group size: International groups

Materials: Laptop & projector; printed case studies; flipcharts; sticky notes; tape

ACTIVITY FLOW

- 1 **Agree or Disagree** (10 min) Opinion-line energizer on statements about privacy, AI and online conduct.
- 2 **Interactive Presentation** (25 min) Key principles: privacy/GDPR, consent, online safety, digital wellbeing, boundaries.
- 3 **Case Study Analysis** (45 min) Groups analyse real-life scenarios (consent, boundaries, exclusion, AI misuse).
- 4 **Coffee Break** (15 min)
- 5 **Role Play — "What Would You Do?"** (45 min) Groups perform short role plays; audience discusses good practice.
- 6 **Creating the Code of Ethics** (30 min) Groups propose 5–6 principles; facilitator merges into one shared Code of Ethics.
- 7 **Reflection & Closing** (10 min) "One ethical principle I will apply is..."

Topic two

A hands-on day: participants get practical with everyday digital tools, then step into cyberattack scenarios to build real protection strategies — closing with reflection and an Intercultural Evening.

HANDS-ON TOOLS

CYBERSECURITY

INTERCULTURAL EVENING

OBJECTIVES

- Recall and consolidate the previous day's learning.
- Become familiar with digital tools by category and their best use cases.
- Compare advantages and limitations of different platforms.
- Gain confidence by creating something with a brand-new tool.

Group size: Whole group + pairs

Materials: Laptops with internet access; projector; example tools (Padlet, Canva, Kahoot, Forms)

ACTIVITY FLOW

- 1 **Weather Report + Reflection Circle** (30 min) Energizer, then circle discussion on yesterday's key takeaways.
- 2 **Interactive Presentation** (40 min) Tools by category: engagement, collaboration, design, video, AI, evaluation.
- 3 **Tool Matching Challenge** (20 min) Groups match youth-work situations to the most suitable digital tool.
- 4 **Coffee Break** (15 min)
- 5 **Pair Practice** (30 min) Pairs create a Padlet board, Canva poster, Kahoot question or Google Form.

OBJECTIVES

- Understand common cybersecurity risks facing NGOs and youth workers.
- Learn how to protect themselves and young people online.
- Develop safe, responsible digital practices.
- Produce a shared checklist for the wider group.

Group size: Small groups

Materials: Flipcharts; markers; sticky notes; printed scenario cards

ACTIVITY FLOW

- 1 True or False Quiz (10 min)** Fast icebreaker on passwords, public Wi-Fi and two-factor authentication.
- 2 Cyberattack Simulation (50 min)** Groups respond to a scenario (hacked page, phishing, data leak, cyberbullying).
- 3 Building a Digital Safety Plan (40 min)** Groups design a "Cyber Safety Checklist" poster.
- 4 Presentations (20 min)** Groups present; facilitator merges ideas into one shared checklist.

Topic three

A mini-hackathon day. Teams reinvent youth work around real challenges, exchange ideas at a rotating World Café, then face a full NGO cyberattack simulation — from phishing e-mail to press conference.

INNOVATION LAB

WORLD CAFÉ

NGO CRISIS SIMULATION

OBJECTIVES

- Identify real challenges youth workers face every day.
- Develop innovative digital + non-formal solutions from scratch.
- Think creatively and collaboratively, like a mini-hackathon team.
- Present and defend ideas in a lively "innovation fair" format.

Group size: Self-selected challenge teams

Materials: Flipcharts; coloured sticky notes; challenge cards; dot stickers for voting; timer

ACTIVITY FLOW

- 1 **Morning Opening & Energizer** (20 min) Reconnect the group; introduce the concept of digital innovation.
- 2 **The Challenge Wall** (15 min) Participants choose the real-world challenge that motivates them most.
- 3 **Problem Analysis** (20 min) Groups explore what is happening, why, and who is affected.
- 4 **Innovation Sprint** (40 min) Design a solution with one digital innovation + one non-formal activity.
- 5 **Build the Prototype** (30 min) Groups prepare a poster: problem, solution, impact — no PowerPoint, just drawing.
- 6 **Innovation Fair** (30 min) Half the group stays by the poster, half rotates and votes for favourites.

OBJECTIVES

- Explore how AI can support youth work without replacing youth workers.
- Discuss how technology can make learning more engaging.
- Ensure no young person is left behind in digital inclusion.
- Build on each other's ideas across rotations rather than starting over.

Group size: Three rotating tables

Materials: 3 tables; flipcharts; markers; sticky notes; bell for rotation signal

ACTIVITY FLOW

- 1 **Table 1 — Artificial Intelligence (15 min)** How can AI improve youth work without replacing youth workers?
- 2 **Table 2 — Innovation in Education (15 min)** How can technology make learning more engaging?
- 3 **Table 3 — Digital Inclusion (15 min)** How can we ensure no young person is left behind?
- 4 **Rotation 2 & 3 (45 min)** Groups rotate; each new group reads, develops and challenges previous ideas.
- 5 **Presentations (15 min)** Each table presents its final, built-up conclusions (5 min each).
- 6 **Debrief (10 min)** Which idea inspired you most? What could your NGO realistically implement?

Cybersecurity Workshop — Can Your NGO Survive a Cyberattack?

≈ 2h 45m

OBJECTIVES

- Recognise common cyber threats affecting NGOs.
- Practise responding to cyber incidents under time pressure.
- Learn how to communicate clearly and calmly during a crisis.
- Create recommendations for a safer digital youth-work environment.

Group size: 5 international NGO teams

Materials: 5 prepared incident envelopes (screenshots/fake emails); flipcharts; sticky notes; dot stickers

ACTIVITY FLOW

- 1 Cybersecurity Quiz (True/False) (15 min)** Quick check of the group's baseline cyber-security habits.
- 2 Cyberattack Simulation (60 min)** 5 teams respond to phishing/ransomware, hacked account, data leak, fake invoice or Zoom-bombing.
- 3 Crisis Press Conference (40 min)** Directors & Communication Officers face tough questions from "journalists."
- 4 Safe Digital Environment — Charter (40 min)** Mixed groups co-create a 4-section Digital Safety Charter.
- 5 Final Reflection Circle (20 min)** "I realised...", "I will change...", "The most important lesson today..."

CONCLUSIONS

"Technology is best when it brings people together."

– Matt Mullenweg

"Digital tools do not replace youth work—they expand its possibilities."

"The future of youth work is not digital or face-to-face; it is the meaningful combination of both."

"Every click can open a door to learning, creativity, participation, and connection."

"Technology is a tool. People are the purpose."

ACKNOWLEDGEMENTS

This handbook is the result of a shared learning journey shaped by the curiosity, openness, and participation of everyone involved.

We would like to thank all participants, facilitators, and organisers for creating a safe and inspiring space for exploration, collaboration, and connection.

Your contributions helped turn this training course into a meaningful experience of moving from digital uncertainty to digital confidence.
